## Renovating a Children's Intensive Care Unit in Cameroon

*By Jessica Morgan*

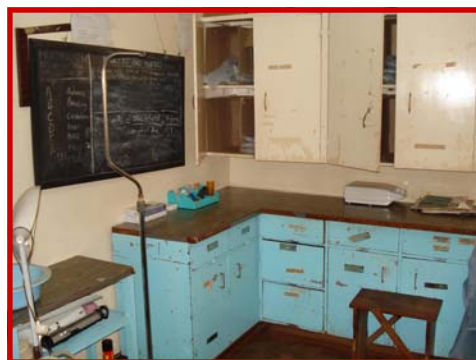

It all started in the summer of 2007 when I spent 6 weeks in Banzo Baptist Hospital in Cameroon, working mainly in their Children's Ward. When I came back to the UK, I felt a real calling to go back to Cameroon and fix one thing - the Children's ICU. But to start with I ignored it... I thought I just want to go back for my own benefit! However, eventually God got through to me when Paul (staff member at Gate Church International) asked for mission plans from the church. I went to see him to see if he thought the project would be a good, God-given idea and he began asking me about costings and timings - I almost wanted to reply 'I thought you'd say no!' Things finally got sorted though and The Gate have given it the green light! So have all the powers that be in Cameroon! So... some time in spring/summer 2009 a team will be going to do this work. All I know is that we are going to make a better ICU for Children's Ward.

This is where you come in. One way of fundraising to purchase all the medical equipment needed for the ICU is through buying some alternative Christmas Gifts this year. Please take time to look through this leaflet to see if you would like to purchase any of the items listed for your loved ones!

Details on how to pay for the purchases are given at the back of this booklet. Thank you so much!

If you would like more information about the mission, please check out Jess' blog at [www.inmedblogs.us/jessicamorgan](http://www.inmedblogs.us/jessicamorgan)
